CALIFORNIA RELEASES DRAFT MEDI-CAL MANAGED CARE RFP

This week, our *In Focus* section reviews the draft Medi-Cal Managed Care Plans (MCPs) request for proposals (RFP) released on June 1, 2021, by the California Department of Health Care Services (DHCS). California will procure MCPs for the Two-Plan Model, Geographic Managed Care (GMC), Regional Model, Imperial Model, and San Benito Model. This RFP excludes County

Operated Health Systems (COHS) Plans and Local Initiative Plans. Of the total 13.5 million Medi-Cal beneficiaries, there are nearly 11.6 million in Medicaid managed care, of which approximately 3.5 million will be served under this RFP. A final RFP release date is still “to be determined” but expected in late 2021. Feedback on the draft RFP is due July 1, as well as voluntary non-binding letters of intent. A pre-proposal web conference will be held on June 10.

MCPs will provide medical, dental, mental health, substance use treatment services, and long-term care for Medicaid beneficiaries and incorporate the initiatives of California Advancing and Innovating Medi-Cal (CalAIM). Our *In Focus* covering CalAIM can be found [here](#). Contracts will run for five years. DHCS may extend the contracts.

DHCS is looking for MCPs that can demonstrate their ability in:

6. Coordinated/Integrated Care
7. Reducing Health Disparities
8. Increased Oversight of Delegated Entities
9. Local Presence and Engagement

Contracts will be awarded to MCPs in each county with the highest total score(s). The evaluation criteria/scoring for proposals is still under development and will be available in the final RFP. For two-plan models, DHCS reserves the right not to award a commercial health plan contract to an MCP that will be contracted, subcontracted, affiliated, or otherwise entered into a partnership arrangement to serve as a Local Initiative in the same two-plan model, or has indicated an intent to do so.

Enrollment figures may shift as DHCS announced on May 7, 2021, a list of counties that submitted a full letter of intent to transition to a local Medi-Cal managed care plan model by January 2024. Counties intending to move to a single plan COHS model include Alameda (with Alameda Alliance for Health), Contra Costa (with Contra Costa Health Plan), and Imperial (with California Health and Wellness). The following counties intend to join with an existing COHS: Mariposa and San Benito (to join Central California Alliance for Health), and Butte, Colusa, Glenn, Nevada, Placer, Plumas, Sierra, Tehama, Sutter and Yuba (to join Partnership Health Plan). Alpine and El Dorado counties submitted their full letter of intent to join an existing two-plan model with Health Plan of San Joaquin. Counties that do not provide an executed county ordinance by October 1 to formalize their choice will be precluded from changing their model type for the current procurement that takes effect January 1, 2024.
